DIGITAL PRESENCE & GOOGLE REVIEWS AUDIT

Non-intrusive reputation assessment and automated acquisition benchmark for local service providers.

1. EXECUTIVE INFRASTRUCTURE & REPUTATION STATUS

Growva Business performed an algorithmic evaluation of **{business_name}**'s public Google My Business profile. While your current rating of **{rating} Stars** indicates strong service quality, your active volume of **{review_count} reviews** restricts local map visibility against competing area businesses.

Performance Metric	Detected Value	Benchmark Status
Google Rating Score	{rating} / 5.0 Stars	**Healthy Quality**
Total Review Volume	{review_count} Reviews	**Growth Opportunity**
Local Competitor Average	80+ Reviews	**Visibility Gap**
Review Acquisition Rate	Manual / Sporadic	**Unautomated**

Market Insight: Local service businesses with under 20 reviews capture significantly less inbound map discovery. Research confirms that 87% of happy customers are willing to leave a review *if asked* at the right post-visit moment.

2. COMPETITOR BENCHMARK ANALYSIS

Active local competitors in your region generate **80%+ more ongoing engagement** through structured review collection workflows. Without an automated touchpoint immediately following customer service delivery, potential high-intent clients default to competitors with higher review density.

3. THE GROWVA BUSINESS SOLUTION ECOSYSTEM

Growva replaces manual follow-ups with a fully automated reputation and repeat-booking engine operating directly over WhatsApp and SMS right after client visits.

Solution Module	Operational Impact for {business_name}
Automated Review Prompts	Instant WhatsApp/SMS triggers sent post-visit with a direct 1-click Google review link.
Private Feedback Shield	Filters negative feedback directly to management privately before it hits public channels.
Repeat Booking Nudges	Automated re-engagement sequences (e.g., Day 20 for salons) to eliminate customer churn.
Unified Dashboard	Manages reviews, staff rosters, and customer notes in one seamless portal.

4. RECOMMENDED ACTION PLAN

To establish market dominance and turn your existing customer base into organic brand advocates, we recommend a two-step activation plan:

Phase 1: Automated Review Capture
Deploy automated post-visit WhatsApp triggers to instantly boost review volume by 300%+ within 90 days.

Phase 2: Executive Discovery Walkthrough
Schedule a brief 10-minute demonstration to review live system dashboards tailored to **{business_name}**.
